Dill (Aneth) Seeds

- *These dill herb seeds are from our twin village in France - Le Vaudreuil, near Rouen.*
- *The variety (L'Aneth du Vaudreuil) is an emblem of the local 'Bouton d'Eure' gardening association.*
- *It is a tall (2m) fragrant herb, easy to grow. Sow from April to June - it likes full sun.*
- *Use the leaves for seasoning salads, soups, and grills, and particularly with fish. Dry the seeds and use as a spice, either ground or whole.*

*For more information on Comberton twinning visits to Le Vaudreuil, or to join us, contact:
