Introduction

This tunebook contains Christmas tunes and carols that I play on my English concertina. They should also be playable on fiddle, whistle, flute, dulcimer, etc. The predominant keys used are G, D and C (and Em, Bm, and Am) to suit folk instruments and ease learning.

Most are traditional tunes, mainly from the British Isles, but others are imports from various sources. All tunes are believed free of current copyright (unless noted explicitly), or else appear to have been placed in the public domain as part of the ongoing live folk music tradition. Please let me know if you are the owner of any that are under access restrictions and I'll remove them.

I have tried to choose the simple versions of most tunes, without much decoration and interpretation, so add your own triplets, grace notes and variations. From this 2019 edition, the guitar chords have had a major overhaul and simplification from the earlier editions (thanks to the Brind family). I’ve also included a small subset of words - just enough to go with the notes written, usually one verse plus a chorus if any. This tunebook is for instrumentalists, not singers!

This tunebook has been prepared using the abcm2ps software, with help from abcmus, EasyABC, and ABCexplorer. A big thank you goes to those creative and dedicated people who give their time to create and maintain low-cost or free and open source software for abc music editing and output.

The current version of this tunebook, in ABC and in PDF forms, is downloadable from Paul’s web site at http://www.pghardy.net/, along with Paul Hardy’s Session Tunebook.

Christ Jesus our Savior was born on this tide.
